

After their graduation more and more pupils attend the higher education system such as Medicine, Engineering, Economics, Law Faculty, etc.

Moreover there is a huge gym offering a great opportunity to our pupils to train and keep fit. We have an open playground which is good for practicing sports.

Rovinari used to be a disadvantaged area, being a mining city but our department and especially its culture is worth being visited.

Our pupils range from all social classes. We have pupils whose parents work abroad or are unemployed. Also we have children from foster families.

Except from classes our pupils participate to additional activities such as trips, sport competitions, thematic parties. We respect our traditions and culture and we try to refresh them with every possible occasion since our customs are unique in the whole world.

Our pupils and teachers are willing and happy to meet other people from other countries, to learn more from their culture and traditions.

Chemistry lab.

Informatics lab.

GHEORGHE TĂTĂRESCU COLLEGIATE

Our high-school was founded in 1974 named General Knowledge High school and later in 1992 Industrial Mining School Group Rovinari. From 2011 our school became a college thanks to our local authority.

Our college is situated in the Gorj department, Oltenia region, in the south west of Romania. Our institution has currently 866 pupils with ages between 14-18 years. It is a technological school with a variety of laboratories such as : Informatics, Physics, Chemistry, Biology, Mechanics, Electronics, History, Modern languages, Romanian lab, an important library and 4 workshops buildings. City of thought and deed our school is a center of culture and civilization due to its Documentation and Information Center.

Thus, educational process is supported by the existence of 10 laboratories equipped with computers, models, panels, chemicals, and of course a well-trained teaching staff (51).

EDUCATIONAL OFFER

We have two sections:

- Sciences and Technological

Specialization:

- Electromechanical, Electronics and Automation,
