This material has been funded with the support of the European Commission. This publication reflects the views only of the author, and the Commission cannot be held responsible for any use which may be made of the information contained therein.

Objectives of the project:

- 1. To reduce educational failure and dropout rates by exchanging best practice ideas between two partner regions in order to prevent school failure and minimize truancy*
- 2. To support schools in achieving at least a minimum standard educational level for all students and in preventing dropout*
- 3. To promote multilingualism and tolerance towards other cultures and sharing our own culture.*

*Methods Of
Preventing Students
Failure*

*MOPSEF
2012-2014*

PROJECT ACTIVITIES

1. create and maintain a web-place to communicate between the two regions.
2. create working groups of teachers in each school.
3. elaborate in common documents for the project.
4. search information, didactic experiences and surveys carried out in each school.
5. meetings between the commissions of the participants to put in common the results.
6. seminars held by experts.
7. printing a book that contains best practice ideas as drawn from the project meetings and conferences
8. exposition of different tasks done in the schools in relation to the communicative competence.
9. conferences dealing with the reasons and how to prevent students failure and the methodology in teaching foreign languages and ICT skills.
10. meeting among local authorities, teachers and parents to share the different points of view about children's education, particularly in relation to their communicative competence (use of new technologies, foreign languages competences, etc).
11. communication among students belonging to the two regions using information and communication technologies (ICT).
12. Meetings between representatives (local authorities, students, teachers and parents).
13. Two annual meetings (in each country) of the representatives of each institution participating in the project.

The project will be in two parts. One part related to difficulties, problems and solutions these problems.

The second part consists producing new methods ways in preventing failure. So it is aimed to awareness of new, and creative methods prevention of school and have a experience in the international area meetings, observations, practicing the best and sharing

Project mobilities

24 mobilities for each country
2 project meetings and conferences in Romania
2 project meetings and conferences in Turkey
